برای پروژه صنعتی تولید عطریات و لوازم بهداشتی

♦ به افراد ذیل از طبقه اناث و ذکور ضرورت است ♦

## 1. Key Responsibilities

### Ecommerce Development & Content Operations

- Build, maintain, and troubleshoot ecommerce stores on WooCommerce, Shopify, and custom PHP CMS platforms.
- Manage bulk uploads and updates of products, content, and graphics across multiple catalogs.
- Perform ongoing store updates, redevelopment, and maintenance.
- Apply strong frontend/CSS skills to keep storefronts consistent, responsive, and on-brand.

### Domains, Hosting, SSL & Security

- Manage domain registrations, DNS, and hosting accounts across the portfolio.
- Set up, renew, and troubleshoot SSL certificates.
- Apply security best practices: hardening, patching, backups, malware remediation, access control.

### AI, Marketing & Analytics

- Use AI platforms to produce high-quality graphics, video, and content for product and marketing pages.
- Integrate AI-powered plugins, tools, and automations to streamline content and operational workflows.
- Support integration between stores/websites and social media accounts.
- Set up and manage SEO, Google Search Console, and Google Analytics.
- Monitor traffic and conversion metrics and recommend improvements.

## 2. Required Skills & Experience

- ✓ 5+ years professional experience in ecommerce development.
- ✓ Strong hands-on experience with WooCommerce and Shopify.
- ✓ Experience with custom-built PHP content management / ecommerce systems.
- ✓ Working knowledge of domain and hosting management (DNS, registrars, renewals).
- ✓ Experience installing and managing SSL certificates.
- ✓ Solid understanding of web application security practices.
- ✓ Familiarity with Google Search Console, Google Analytics, and core SEO principles.
- ✓ Comfortable using AI tools (image/video/content generation platforms) in a production workflow.
- ✓ Strong communication skills and ability to manage multiple stores/projects independently.

### Nice to Have

- Experience with bulk product data import/management tools.
- Familiarity with automation platforms (e.g., Zapier, Make) connecting AI tools to websites.
- Experience with social media API integrations or scheduling tools.
- Prior experience supporting a portfolio of multiple client stores simultaneously.
- Relevant certifications (AWS, security, or ecommerce platforms).

### What We Offer

- Competitive salary commensurate with experience.
- Flexible / remote working arrangement.
- Opportunity to shape how AI tools are adopted across the business.
